

IFRA Certificate of Conformity

Product Details

Name : California Girl Fragrance Oil

SKU : FO3090

Essentials by Catalina, Inc. certifies that the above mentioned product is in compliance with the 51st Amendment of the IFRA Code of Practice (published June 2023). Below are the maximum usage dosages in fragrance for the categories:

IFRA Category	Maximum Usage Level (%)
Category 1	Not approved
Category 2	5.000%
Category 3	Not approved
Category 4	15.000%
Category 5A	5.000%
Category 5B	5.000%
Category 5C	5.000%
Category 5D	Not approved
Category 6	Not approved
Category 7A	Not approved
Category 7B	Not approved
Category 8	Not approved
Category 9	5.000%
Category 10A	5.000%
Category 10B	5.000%

IFRA Category	Maximum Usage Level (%)
Category 11A	5.000%
Category 11B	Not approved
Category 12	Not approved

For use in other applications or use at higher concentration levels, a new safety evaluation may be needed. The IFRA Standards regarding use restrictions are based on safety assessments by the Panel of Experts of the Research Institute for Fragrance Materials (RIFM) and are enforced by the IFRA Scientific Committee.

Evaluation of individual fragrance ingredients is made according to the safety standards contained in the relevant section of the IFRA Code of Practice.

It is the ultimate responsibility of our customer to ensure the safety of the final product (containing the fragrance) by further testing if needed.

Blend Composition

This IFRA certificate was calculated from the individual IFRA certificates of the following component fragrance oils at their respective concentrations in the blend:

#	Component	% w/w	IFRA Amendment
1	Pear & White Blossom [ORC1902250]	34.00%	48th
2	Lemongrass & Aloe Fragrance Oil	20.00%	48th
3	Damask Rose [FN360046]	20.00%	51st
4	Coconut Milk Fragrance Oil [EE18-28266]	13.00%	48th
5	Caribbean Coconut Fragrance Oil	13.00%	48th

Calculation Method: For each IFRA category, each component's maximum usage level is divided by its fraction in the blend. The lowest resulting value across all components becomes the blend's maximum usage level for that category. If any component is not approved (0%) for a category, the blend is also not approved for that category. Components mapped from the 48th Amendment class structure were conservatively assigned to their closest 51st Amendment category equivalents.

IFRA Category Definitions

Below is an extract of information provided by IFRA in relation to types of application present in each IFRA Category. Additional information about IFRA Categories can be found in the Guidance to IFRA Standards, issued by IFRA.
