

SAFETY DATA SHEET

Prepared in accordance with OSHA Hazard Communication Standard (HCS) 2024 — 29 CFR 1910.1200

Product: Bed of Roses Fragrance Oil

SKU: FO987

Revision Date: 10/27/2026

Version: 1

1. IDENTIFICATION

Product Name	Bed of Roses Fragrance Oil
Description	Bed of Roses Fragrance Oil
SKU	FO987
CAS No.	Mixture
Suggested Use	Fragrance oil / compound for use in consumer and industrial products
Restrictions on Use	N/A
Supplier	Essentials by Catalina 12781 Temescal Canyon Rd. Corona CA 92883 951-674-4444 hello@essentialsbycatalina.com
Emergency Contact	CHEMTREC: 1-800-424-9300 (Domestic) +1-703-527-3887 (International)

2. HAZARD IDENTIFICATION

Hazard Class	Category	Statement
Flammable Liquids	Category 4	H227: Combustible liquid
Acute Toxicity, Oral	Category 4	H302: Harmful if swallowed
Skin Corrosion/Irritation	Category 2	H315: Causes skin irritation
Serious Eye Damage/Eye Irritation	Category 2	H319: Causes serious eye irritation
Skin Sensitization	Category 1	H317: May cause an allergic skin reaction
Hazardous to the Aquatic Environment, Acute	Category 2	H401: Toxic to aquatic life
Hazardous to the Aquatic Environment, Chronic	Category 2	H411: Toxic to aquatic life with long lasting effects

Signal Word: WARNING

Precautionary Statements

P210: Keep away from heat, hot surfaces, sparks, open flames. No smoking.
P261: Avoid breathing mist or vapor.
P264: Wash hands thoroughly after handling.
P270: Do not eat, drink or smoke when using this product.
P272: Contaminated work clothing should not be allowed out of the workplace.
P273: Avoid release to the environment.

P280: Wear protective gloves/eye protection/face protection.

P301+P312: IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

P330: Rinse mouth.

P302+P352: IF ON SKIN: Wash with plenty of water.

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P333+P313: If skin irritation or a rash occurs: Get medical advice/attention.

P337+P313: If eye irritation persists: Get medical advice/attention.

P362+P364: Take off contaminated clothing and wash it before reuse.

P370+P378: In case of fire: Use appropriate media to extinguish.

P391: Collect spillage.

P403+P235: Store in a well-ventilated place. Keep cool.

P501: Dispose of contents/container in accordance with local/regional/national/international regulations.

Rating System	Health	Flammability	Physical/Reactivity
HMIS	2	2	0
NFPA 704	2	2	0

Potential Health Effects

Inhalation	Avoid breathing mist or vapor.
Skin	Causes skin irritation; may cause redness, pain and dermatitis. May cause an allergic skin reaction.
Eyes	Causes serious eye irritation. Symptoms may include stinging, tearing, redness, swelling and blurred vision.
Ingestion	Harmful if swallowed.
Chronic Effects	No components are identified as carcinogens by ACGIH, IARC, NTP, or OSHA at 0.1% or greater.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Composition	This product is a mixture of fragrance ingredients. The individual chemical identities and concentrations are proprietary information and trade secrets, and are withheld in accordance with the provisions of the law. The product is classified in Section 2 based on its hazardous ingredients.
--------------------	--

4. FIRST AID MEASURES

Inhalation	If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist.
Eye Contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Skin Contact	Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: seek medical attention and take along these instructions. Wash contaminated clothing before reuse.
Ingestion	Rinse mouth. If vomiting occurs, keep head low so that stomach content does not get into the lungs. Get medical advice/attention if you feel unwell.
Most Important Symptoms/Effects	Severe eye irritation: stinging, tearing, redness, swelling and blurred vision. Skin irritation: redness and pain. May cause an allergic skin reaction, dermatitis, rash.

Indication of Immediate Medical Attention	Provide general supportive measures and treat symptomatically. Keep victim warm and under observation. Symptoms may be delayed.
General Information	Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media	Water fog, foam, dry chemical powder, carbon dioxide (CO ₂).
Unsuitable Extinguishing Media	Do not use a water jet, as this will spread the fire.
Special Hazards	The product is combustible, and heating may generate vapors which may form explosive vapor/air mixtures. During fire, gases hazardous to health may be formed.
Advice for Firefighters	Wear self-contained breathing apparatus and full protective clothing. In case of fire and/or explosion do not breathe fumes. Move containers from the fire area if you can do so without risk. Use standard firefighting procedures and consider the hazards of other involved materials.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions	Keep unnecessary personnel away and keep people upwind of the spill/leak. Eliminate all ignition sources (no smoking, flares, sparks or flames in the immediate area). Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Ensure adequate ventilation. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.
Environmental Precautions	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground. This material is classified as a water pollutant under the Clean Water Act. Inform appropriate managerial or supervisory personnel of all environmental releases; advise local authorities if significant spillages cannot be contained.
Large Spills	Stop the flow of material if this is without risk. Dike the spilled material where possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush the area with water.
Small Spills	Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material. Clean the surface thoroughly to remove residual contamination. Keep combustibles (wood, paper, oil, etc.) away from spilled material. Never return spills to original containers for re-use.

7. HANDLING AND STORAGE

Safe Handling	Keep away from open flames, hot surfaces and sources of ignition. Do not taste or swallow. Avoid breathing mist or vapor. Avoid contact with eyes, skin and clothing. Do not eat, drink or smoke when using. Provide adequate ventilation and wear appropriate personal protective equipment. Wash hands thoroughly after handling. Avoid release to the environment. Observe good industrial hygiene practices.
Safe Storage	Keep away from heat, sparks and open flame. Store in a cool, dry, well-ventilated place out of direct sunlight, in the original tightly closed container. Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10).

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits	No occupational exposure limits or biological limit values are noted for the ingredients.
------------------------	---

Engineering Controls	Good general ventilation (typically 10 air changes per hour) should be used and matched to conditions. If applicable, use process enclosures, local exhaust ventilation or other engineering controls to maintain airborne levels at an acceptable level. Eye wash facilities and an emergency shower must be available when handling this product.
Eye/Face Protection	Face shield is recommended. Wear safety glasses with side shields (or goggles).
Hand Protection	Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier.
Other Skin Protection	Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.
Respiratory Protection	If engineering controls do not maintain airborne concentrations at an acceptable level, an approved respirator must be worn.
Thermal Hazards	Wear appropriate thermal protective clothing when necessary.
General Hygiene	Do not smoke when using. Keep away from food and drink. Wash after handling the material and before eating, drinking and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. PHYSICAL AND CHEMICAL PROPERTIES

Property	Value	Property	Value
Physical State	Liquid	Flash Point	187.0°F (86.1°C), closed cup
Odor	Characteristic	Autoignition Temperature	563°F (295°C), estimated
Color	Not available	Flammability Class	Combustible IIIA, estimated
Initial Boiling Point	347.9°F (175.5°C), estimated	Explosive Properties	Not explosive
Melting/Freezing Point	-139.9°F (-95.5°C), estimated	Oxidizing Properties	Not oxidizing
Vapor Pressure	0.2036 hPa, estimated	Specific Gravity	1.0015
VOC Content	5%, estimated	Density	1.04 g/cm ³ , estimated
pH	Not available	Refractive Index	1.5008
Solubility (Water)	Not available	Percent Volatile	5%, estimated

10. STABILITY AND REACTIVITY

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical Stability	Stable under normal conditions.
Possibility of Hazardous Reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Heat, sparks, open flames and other ignition sources. Temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible Materials	Alkaline metals, peroxides.
Hazardous Decomposition Products	No hazardous decomposition products are known.

11. TOXICOLOGICAL INFORMATION

This mixture has not been subjected to toxicological testing as an entity. The classification in Section 2 is based on the hazardous ingredients.

Acute Toxicity – Oral	Category 4: harmful if swallowed.
------------------------------	-----------------------------------

Acute Toxicity – Dermal / Inhalation	No data available.
Skin Corrosion/Irritation	Category 2: causes skin irritation.
Serious Eye Damage/Eye Irritation	Category 2: causes serious eye irritation.
Respiratory or Skin Sensitization	Skin sensitizer, Category 1: may cause an allergic skin reaction. No data available for respiratory sensitization.
Germ Cell Mutagenicity	No data available.
Carcinogenicity	No components are identified as carcinogens by ACGIH, IARC, NTP, or OSHA at 0.1% or greater.
Reproductive Toxicity	No data available.
STOT – Single / Repeated Exposure	No data available.
Aspiration Hazard	No data available.

12. ECOLOGICAL INFORMATION

Acute Aquatic Toxicity	Category 2: toxic to aquatic life.
Chronic Aquatic Toxicity	Category 2: toxic to aquatic life with long lasting effects.
Ecotoxicity Data	This mixture has not been subjected to ecotoxicological testing as an entity.
Persistence and Degradability	No data available.
Bioaccumulative Potential	No data available.
Mobility in Soil	No data available.
Other Adverse Effects	No other adverse environmental effects are expected.

13. DISPOSAL CONSIDERATIONS

Disposal Instructions	Collect and reclaim, or dispose in sealed containers at a licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used containers. Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazardous Waste Code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Contaminated Packaging	Empty containers may retain product residue; follow label warnings even after the container is emptied. Take empty containers to an approved waste handling site for recycling or disposal.

14. TRANSPORT INFORMATION

US Domestic (US DOT)	UN1993, Flammable liquids, n.o.s., MARINE POLLUTANT. Class 3, Packing Group III. Label: 3. Special provisions: B1, B52, IB3, T4, TP1, TP29. Packaging exceptions: 150; non-bulk: 203; bulk: 242.
IATA (Air)	UN3082, Environmentally hazardous substance, liquid, n.o.s. Class 9, Packing Group III. ERG Code 9L. Passenger and cargo aircraft: allowed with restrictions. Cargo aircraft only: allowed with restrictions.

IMDG (Sea)	UN3082, ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S., MARINE POLLUTANT. Class 9, Packing Group III. EmS: F-A, S-F.
Marine Pollutant	Yes (IMDG and DOT regulated marine pollutant).
Special Precautions for User	Read safety instructions, SDS and emergency procedures before handling.
MARPOL 73/78 Annex II / IBC Code	Not established.

15. REGULATORY INFORMATION

TSCA	All components are listed on the TSCA Inventory. TSCA Section 12(b) export notification: not regulated.
CERCLA / SARA 302 / SARA 304	CERCLA Hazardous Substance List (40 CFR 302.4): not listed. SARA 302 Extremely Hazardous Substances: not listed. SARA 304 emergency release notification: not regulated.
SARA 311/312	Hazardous chemical: No. Hazard categories: Immediate (acute) hazard – Yes; Delayed (chronic) hazard – No; Fire hazard – Yes; Pressure hazard – No; Reactivity hazard – No.
SARA 313 (TRI)	Not regulated.
Other Federal	OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050), Clean Air Act Section 112 HAPs, CAA Section 112(r), and Safe Drinking Water Act: not regulated.
US State Regulations	California Controlled Substances; Massachusetts, New Jersey, Pennsylvania and Rhode Island Right-to-Know: not listed / not regulated.
California Proposition 65	This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.

Country / Region	Inventory	Listed
Australia	AICS	Yes
Canada	Domestic Substances List (DSL)	Yes
Canada	Non-Domestic Substances List (NDSL)	No
China	IECSC	Yes
Europe	EINECS	No
Europe	ELINCS	No
Japan	ENCS	No
Korea	Existing Chemicals List (ECL)	Yes
New Zealand	New Zealand Inventory	Yes
Philippines	PICCS	Yes
United States & Puerto Rico	TSCA Inventory	Yes

A "Yes" indicates that all components comply with the inventory requirements of the governing country/region. A "No" indicates that one or more components are not listed or exempt from listing on that inventory.

16. OTHER INFORMATION

GHS H-Statements referred to in Section 2:

Code	Statement	Code	Statement
H227	Combustible liquid	H302	Harmful if swallowed
H315	Causes skin irritation	H317	May cause an allergic skin reaction
H319	Causes serious eye irritation	H401	Toxic to aquatic life
H411	Toxic to aquatic life with long lasting effects
