

Product: Deodorized Cocoa Butter**SKU:** RAW1337**Revision Date:** 30 Jul 2026**Revision No.:** 1

1. IDENTIFICATION

Product Name	Deodorized Cocoa Butter
Other Names	Pure Prime Pressed Cocoa Butter; Theobroma Cacao Seed Butter
SKU	RAW1337
CAS No.	8002-31-1
Recommended Use	Raw material for cosmetic, personal care, and food formulation.
Restrictions on Use	None known when used as directed.
Supplier	Essentials by Catalina 12781 Temescal Canyon Rd. Corona CA 92883 951-674-4444 hello@essentialsbycatalina.com
Emergency Contact	Essentials by Catalina: 951-674-4444 (Mon–Fri, 8:00 AM–5:00 PM Pacific) After hours / medical emergency: National Poison Control Center – 1-800-222-1222

2. HAZARD IDENTIFICATION

GHS Classification	Not classified as hazardous according to the criteria of the Globally Harmonized System of Classification and Labelling of Chemicals (GHS).
Signal Word	None
Hazard Statements	None
Precautionary Statements	None required. Use in accordance with good manufacturing and industrial hygiene practice.
Other Hazards	None known. Not a PBT or vPvB substance.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Entity	CAS Number	Proportion
Cocoa Butter (Theobroma cacao seed butter)	8002-31-1	100%

4. FIRST AID MEASURES

Swallowed	Rinse mouth, then drink a glass of water. Do not induce vomiting unless directed to do so by medical personnel. Get medical advice/attention if you feel unwell.
Eye Contact	Immediately flush eyes with running water for several minutes, holding eyelids open. Remove contact lenses if present and easy to do. Continue rinsing for at least 15 minutes. If irritation persists, get medical advice/attention.
Skin Contact	Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. If irritation occurs, get medical advice/attention.
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If respiratory symptoms persist, get medical advice/attention.

Most Important Symptoms/Effects	Direct contact with eyes may cause temporary irritation.
Advice to Physician	Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media	Dry chemical, carbon dioxide (CO ₂), foam, or water spray. Do not use a water jet, as this will spread the fire.
Unsuitable Extinguishing Media	Water jet.
Specific Hazards	May burn but does not ignite readily. During fire, gases hazardous to health may be formed, including carbon oxides.
Special Fire-Fighting Instructions	Move containers from fire area if it can be done without risk. Cool containers with water spray until well after fire is out. Contain runoff from fire control or dilution water; runoff may cause pollution.
Personal Protective Equipment	Wear positive-pressure self-contained breathing apparatus (SCBA) and full structural firefighters' protective clothing.
Flash Point	300 °C

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions	Ensure adequate ventilation. Do not touch or walk through spilled material – slipping hazard on leaked or spilled product. Avoid contact with eyes, skin and clothing. Use personal protective equipment as required (see Section 8).
Environmental Precautions	Prevent entry into drains, sewers, and waterways.
Containment and Clean-Up	Stop the leak if it can be done without risk. Pick up with sand or other non-combustible absorbent material and place into containers for disposal (see Section 13). For small spills, wipe up with absorbent material (e.g., cloth, fleece). Product is immiscible with water and will spread on the water surface. Clean the surface thoroughly to remove residual contamination.

7. HANDLING AND STORAGE

Handling	Handle in accordance with good industrial hygiene and safety practice. Avoid breathing mist/vapours and contact with eyes, skin, and clothing. Do not ingest outside of intended formulation use. Keep away from heat and sources of ignition – no smoking. Use personal protective equipment as required (see Section 8).
Storage	Store in a cool, dry, well-ventilated place, out of direct sunlight. Keep containers closed. Keep away from heat and sources of ignition – no smoking. Keep away from incompatible materials (see Section 10).
Container	Keep in the original container.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits	No occupational exposure limits established for this ingredient. For vegetable oil mists (except castor, cashew nut, or similar irritant oils): OSHA/ACGIH-referenced TWA = 10 mg/m ³ .
Engineering Controls	Local and/or general exhaust ventilation recommended to keep employee exposure as low as possible, particularly where the material is heated.

Respiratory Protection	Not normally required. In case of inadequate ventilation or when heated, wear an air-purifying respirator with an appropriate, government-approved filter, cartridge, or canister.
Eye/Face Protection	Safety glasses with side shields recommended where splash contact is possible.
Hand Protection	Chemical-resistant gloves recommended for prolonged or repeated handling.
Skin/Body Protection	Wear protective clothing appropriate to the task being performed.
Work Hygienic Practices	Do not eat, drink, or smoke when using this product. Wash hands after handling and before eating, drinking, or smoking. Routinely launder work clothing and protective equipment to remove residual contamination.

9. PHYSICAL AND CHEMICAL PROPERTIES

Property	Value	Property	Value
Physical State	Solid	Melting Point	33 – 55 °C
Appearance	Soft solid, paste	Boiling Point	≥ 390 °C
Colour	Yellowish-white	Flash Point	300 °C
Odour	Characteristic of cocoa	Specific Gravity	0.92 – 0.95
pH	No data available	Solubility (Water)	Insoluble
Auto-Ignition Temp.	No data available	VOC Content	No data available

10. STABILITY AND REACTIVITY

Chemical Stability	Stable and non-reactive under normal conditions of use, storage, and transport.
Conditions to Avoid	Keep away from heat and sources of ignition.
Materials to Avoid	Incompatible/reactive with strong oxidising agents.
Hazardous Decomposition Products	Fire or decomposition may produce irritating and/or toxic gases, including carbon oxides.
Possibility of Hazardous Reactions	Hazardous polymerisation will not occur.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity	No data available. Not expected to be acutely toxic based on available information.
Skin Corrosion/Irritation	Prolonged skin contact may cause temporary irritation. Classification criteria not met.
Serious Eye Damage/Irritation	Direct contact with eyes may cause temporary irritation. Classification criteria not met.
Sensitisation	Not expected to cause respiratory or skin sensitisation.
Germ Cell Mutagenicity	No data indicating mutagenic or genotoxic effects.
Carcinogenicity	Not considered a carcinogen by IARC, ACGIH, NTP, or OSHA.
Reproductive Toxicity	Not expected to cause reproductive or developmental effects.
STOT – Single / Repeated Exposure	Not classified.

Aspiration Hazard	Not an aspiration hazard.
Routes of Exposure	Ingestion – not expected to be acutely toxic. Eye contact – may cause temporary irritation. Skin contact – no adverse effects expected. Inhalation – vapour from heated material may irritate the upper respiratory tract.

12. ECOLOGICAL INFORMATION

Ecotoxicity	Classification criteria not met based on available data.
Persistence/Degradability	Readily biodegradable.
Bioaccumulative Potential	Not expected to bioaccumulate in aquatic or terrestrial organisms.
Mobility in Soil	No data available.
Other Adverse Effects	Not classified as environmentally hazardous; large or frequent spills may still have a harmful effect on the environment.

13. DISPOSAL CONSIDERATIONS

Disposal Methods	Dispose of contents/container in accordance with local, regional, and national regulations. Collect and reclaim, or dispose of in sealed containers at a licensed waste disposal site.
Contaminated Packaging	Empty containers may retain product residue; follow all label warnings even after the container is emptied. Take empty containers to an approved waste handling site for recycling or disposal.

14. TRANSPORT INFORMATION

US Domestic (US DOT)

Proper Shipping Name	Cocoa Butter
Hazard Class / UN Number	Not applicable – not regulated
Comments	NON-DANGEROUS GOODS: Not regulated for land transport.

International (IMDG / IATA DGR)

Proper Shipping Name	Cocoa Butter
Hazard Class / UN Number	Not applicable – not regulated
Marine Pollutant	No
Comments	NON-DANGEROUS GOODS: Not regulated for sea or air transport.

15. REGULATORY INFORMATION

US TSCA	Listed
Canada DSL	Listed
EU EINECS	Listed (310-127-6)
China IECSC	Listed
Other Inventories	Listed on the New Zealand (NZIoC), Philippines (PICCS), and Taiwan (TCSI) inventories.

16. OTHER INFORMATION

Revision Number	1
------------------------	---

Revision Date	30 Jul 2026
----------------------	-------------

Reason for Issue	Initial EBC issuance, adapted from supplier SDS.
-------------------------	--
